Subject: Thank you for ATSDR's help in the Virgin Islands!

Pat, it was a pleasure to talk with you earlier, and to discover many shared connections!

But my main purpose in writing is to thank, on behalf of EPA, the great staff in ATSDR who have been supporting the response in the U.S. Virgin Islands to the recent tragic incident regarding Methyl Bromide. We have especially appreciated your assistance in providing a medical doctor to consult with the attending physician for the victims, and the continued epidemiological investigations of persons at other locations who may have been exposed.

Your professionalism and your support in carrying out this work and communicating credible results is an example of government functioning the way it should. On behalf of Judith Enck, our Region 2 Regional Administrator, the Region 2 response team, Administrator McCarthy, and all of us at EPA, please accept our gratitude. I hope you will find ways to share this with your entire team.

Best regards, and I look forward to meeting with you when you are Washington sometime soon!

Stan Meiburg
